

Conferencing

When you want Your message to be heard!

AIV Services deliver on time & on budget Conferencing in Ireland & the UK.

Contact us with details to see how much time & money we can save you!

Stage & Lighting

We have the latest in professional stage design, with super-fast fitting.

Our lighting systems can be digitally controlled allowing for mood creation & coloured light washes on critical areas.

We supply printed back-drops & roll up banners as well as lecterns & directional Signage stands for lobbies to temporary car park directional signs

HD Recording & Editing

When you require a record of your conference we can set up 1 to multi camera HD recording to capture not only the speakers but also crowd reaction & mood. Our cameras work works with the sound & Lighting table to provide seamless quality.

HD Editing & the production of Blu-Ray copies were required. We incorporate data into Video.

Sound & Image Projection

With a range of speaker sizes depending on the venue & audience size all controlled by our technician at the sound table.

For the highest standards we offer back-lit projection of power point presentations or images. The provision of up to 60" LCD screens will insure the audience receives your message. We also have professional MC's from the broadcast media world for hire.
